Federal Judge Says Labor Unions Must File 'Red' Affidavits

Non-Communist Provision of Taft Law Is Constitutional, Legal, Proper in His View; Oil Workers Involved in Case at Fort Worth, Texas

Fort Worth, Tex., Sept. 9 (AP)—Federal District Judge T. Whitfield Davidson yesterday upheld the Taft-Hartley law requirement that labor unions file affidavits that their officials are not Communists. This was the first ruling on the question.

The judge declared that the non-Communist provision is fully constitutional—legal, consistent and proper.

The ruling was made at a hearing here involving the Oil Workers International Union (C.I.O.). He held that the C.I.O. had not complied with the law, thus the O.W.I.U. did not have recourse to the N.L.R.B.

The O.W.I.U. had filed a petition seeking to force Regional N.L.R.B. Director Edwin A. Elliott to count ballots in an election of workers of the Deep Oil Development Company at Wichita Falls, Tex.

"The constitution guarantees a representative form of government," Judge Davidson declared, "and it is consistent and proper to throw restraint around any organization by denying privileges to those who would destroy this form of government."

Davidson ruled that the O.W.I.U. was not eligible for certification as a bargaining unit because the C.I.O. failed to comply with the provision of the Taft-Hartley law which requires filing of non-Communist affidavits.

In Chicago, A.F.L. President William Green said that he believed top A.F.L.-leaders would sign non-Communist affidavits in order to use the National Labor Relations Board in jurisdictional fight with rival unions.

Top C.I.O. officers have not yet agreed to sign the affidavits and a final decision won't be reached by C.I.O. unions until their convention in Boston beginning October 13.

To Attempt Control
In handing down the ruling on the non-Communist provision, Judge Davidson declared it "behoves the government to attempt to control the growth of any system that would attempt to control the government" since, he said, the constitution guaranteed a republican form and the people were expected to live by the laws which their representatives made.

The judge continued, "Communism is recognized as not being a representative form of government." * * * Communism is more the dictatorial type of elections under a dictator are one-sided affairs. People do not have a free choice.

If the law means what it says, the provisions of it must be complied with * * *
Judge Davidson overruled a motion for dismissal, presented to the court by David Lindling, associate counsel for N.L.R.B. of Washington. Lindling declared that a ruling by the court would have wide-spread effect, and pointed out that the N.L.R.B. has approximately 3,000 such cases pending.

Following the hearing, O.W.I.U. President O. A. Knight said he did not know whether an appeal to Judge Davidson's ruling would be made.

Trucks Damaged In Local Smashup
Drivers of two trucks, one owned by the county, escaped uninjured when they were in collision at Washington avenue and North Front street at 9:35 a. m. today, according to the police.

A Walters truck of the Ulster County Highway Department, the report said, was operated by Edward Ricks, R.D. No. 1, Saugerties, and the other, owned by Michael Perry, 17 Crane street, was driven by Joseph Perry, 15 Crane street.

Fashion Show Is Dropped; Display Will Take Place

Poll Result Cause Sponsors to Eliminate Showing With Living Models

Kingston Merchants will stage their Fall Fashion Kick-off Promotion Display Thursday and Friday of this week when stores throughout the city will present a pre-season display of the fall merchandise. Every merchant participating in the Fall Display will present to the public through window displays the latest in merchandise.

A Fashion Show which was contemplated as a part of the Fall display has been "written-off" because of the lack of interest on the part of the business people. A poll was taken among the merchants to determine the advisability of holding a Fashion Show in connection with the Fall Display and the results of the poll caused that part of the program to be abandoned. It had been contemplated holding the Fashion Show at Anderson Park if the weather was favorable and if the weather did not permit an open air show, the Fashion Show was to be moved to the Crystal Ball-room of the Governor Clinton Hotel.

City-Wide Display
However, discontinuance of the Fashion Show will not detract from the city-wide display of merchandise in individual stores.

In connection with the Fall Fashion Kick-off there will be a "misplaced article" contest which will be open to the public to compete for valuable prizes.

The public will have an opportunity to examine the show windows of participating stores and there ascertain what article in the window is "misplaced" or does not belong with the line of merchandise handled by the firm.

Contestants will only have to mark down their answer on a coupon which will be found in the newspapers to become eligible for the cash prizes being offered.

The "misplaced article" contest will remain open Thursday and Friday and through the week-end.

Publishers Vote Against Typos' Labor Law Stand

Resolve to Refuse Any Demand Contrary to Taft-Hartley Provisions

Saranac Inn, N. Y., Sept. 9 (AP)—The New York State Publishers Association went on record today against demands by the A.F.L. International Typographical Union that the association considers in violation of the Taft-Hartley law.

The resolution, passed unanimously by approximately 100 publishers meeting here, did not mention specifically the union's recently-announced policy of posting conditions under which members would work, without engaging in contracts and dealings with the new National Labor Relations Board.

The policy was adopted as a protest against the Taft-Hartley law. The resolution of the association which includes publishers of most New York newspapers, said that "no demand in violation of the provisions or intent of the labor-management relations law shall be accepted."

The publishers and newspaper editors, whose five-day conference ends today, last night heard Admiral Thomas C. Kincaid, commander of the eastern sea frontier, assert he did not "visualize a world-wide war in the immediate future" and that "the important problem is to block the forces of aggression."

The Publishers Association, in its resolution on the Taft-Hartley law said the group "shall take whatever step may seem necessary or appropriate to make effective the spirit and purpose" of the law.

Trees Are Removed From School Property

The work of removing 63 trees from the former Sahler property was begun yesterday by Contractor Arnold Rymkevitch, Boiceville, who is working for the Board of Education. Trees along Washington avenue and Wall street, as well as those which border the Home for the Aged on Washington avenue, will be left standing. Board of Education plans call for the erection of a new school as soon as conditions will permit. (Freeman Photo)

Major R. J. Cole Announces Men Favoring Guard

Veterans Show Interest in 156th Units Now Recruiting at Armory

With recruiting for the National Guard progressing satisfactorily at the State Armory in Kingston, it is appropriate that the people of this city have a first hand knowledge of the men who have answered the call of the President of the United States for a strong and well trained National Guard.

Major Richard J. Cole, Field Artillery officer, said today. The presence of these combat experienced men in local units, he said, is an assurance that the National Guard will again be an effective striking force against any aggressor.

The following are some of the men who have signified their desire to serve and who are in the process of being enlisted into local units:

Gunnery Mate Second Class Roger Morgan, 33 Hoffman street, who saw two years and eight months of sea duty in World War 2 aboard the U. S. S. Cabot, in charge of one of the ship's gun batteries.

Sgt. Peter C. Cashara, Glasco, who served overseas for two years with the 13th Infantry, Company C, as a mortar gunner, and who holds the Bronze Star and Purple Heart. Sgt. Cashara participated Continued on Page Five

Merchants Will Hold Street Dance

Special Prizes Will Be Given by Sponsors September 24

Plans for a mammoth celebration to mark the official opening of the newly-paved North Front street section are being made by the merchants of North Front street. This celebration will be held Wednesday, September 24, and will include a program of entertainment, dancing to the music of an orchestra and such merchant on North Front street will give away a prize that day.

These prizes will be displayed in the windows of the stores prior to the day of celebration. * * * Decision to hold a big celebration to mark the completion of the new street improvements was made at a special meeting of the members of the North Front Street Merchants' Association held Monday evening at Marion's Restaurant.

At that time a report was received from the entertainment committee which includes Albert Barnett of Barnett Brothers Antique store, William Huppert of Huppert's Meat Market, Bernard Schwartz of Aronson's Dress Shop, Anthony Bonnici of The Sunny-side Grill and Secretary Norman Shapiro of Shapiro's Paint and Hardware store, and it was decided to hold the mammoth celebration in conjunction with the official opening of the new pavement through North Front street.

Merchants at the meeting unanimously approved the program which had been arranged by the entertainment committee and the program will include complete decorations for the street, special lighting and an orchestra will provide music for dancing. * * * Merchants of North Front street will give away prizes which will be previously displayed in the store windows. There will also be sound movies shown by the Art Craft Photo Shop of North Front street and refreshments will be served by Huppert's Meat Market. Any other merchants in the neighborhood who wish to participate in the celebration have been invited by the committee to do so. Early this season it was announced that North Front street would be repaved, the pavement widened and new sidewalks laid. During the past several weeks this work has been progressing and is now practically completed. It is to celebrate the completion of this work, which has greatly improved the facilities of the street, that the celebration on Wednesday, September 24, will be held. Local Landmark Vacant for Almost 10 Years; Resembles Castle in Its Architecture

May Build Pool

Swimming Pool May Be Added to Grounds, Is Report

Renovations and repairs are in progress this week on the former mansion of the S. D. Coykendall estate on West Chestnut street preparatory to opening of a large house as a hotel and restaurant, it was learned today.

Plans of Stella Catalano and Mary Cappola of New York, who are designated as co-partners in the venture, call for completion of renovations by late December and possible opening of the establishment by Christmas.

Announcement of plans to convert the former palatial home- stead of one of the city's prominent families into a hotel and restaurant, came from Gino Catalano, husband of one of the partners, who is now supervising renovations.

Lives in New Paltz
The former New York man, who now resides in New Paltz, said that he had operated a restaurant in the Marie Antoinette Hotel, 66th street and Broadway, several years ago.

Details of the property transfer, Mr. Catalano said, have not been completed, but he expects that they will be by next month. Negotiations have been in progress for several weeks, he reported, with Louis and Charles Aifron of Fleischmanns, who had previously bought the property from the Coykendall estate.

The New York man said that the 36-room house will be made into a hotel of distinction and that its restaurant will be of excellent cuisine, if all presently projected negotiations are completed.

Mr. Catalano said that current plans call for renovation of the structure from top to bottom and that it will be redecorated on all floors.

The house, which belongs to a dying era of mansions, commands a view of the lower sector of the city and of the Hudson river from its rear rooms and porch. It is finished in the elaborate style of many mansions of its time, and contains considerable flooring of expensive mosaic tile. Its architecture is suggestive of a castle abroad and it is built in brown brick and stone. It has three floors and many upper rooms and those of the ground floor are large and of quaint and interesting design. The house has been a landmark for more than half a century and it was built in the days during the more prosperous days of the city's waterfront and industries dependent upon it. It has been vacant for a decade. Mr. Catalano said today that although details of the transaction have not been completed, they had progressed to a point where he was given permission to proceed with renovations and estimates. An application will be made he Continued on Page Sixteen

Campsites Drew 519,854; Will Be Closed Sept. 15

Albany, N. Y., Sept. 9 (AP)—New York's 29 public campsites in the Adirondack and Catskill Forest preserves, which attracted 519,854 registered visitors by Labor Day will be closed officially next Monday.

The State Conservation Department announced, however, that transient visitors would be allowed to use the facilities until cold weather arrives.

D. Mulholland, superintendent of the department's bureau of camps and trails, said the registered attendance from May 30, through September 1, was 57,000 higher than in 1946.

The five leading campsites, on the basis of registration, were: Heartstone Point, Lake George, 50,537; North Lake in the Catskills, 46,829; Cumberland Bay, Lake Champlain, 43,687; Caroga Lake, 43,256 and Fish Creek ponds, 36,476.

Lovy's Condition Fair

Alexander Lovy, 39, of 53 Montrose avenue, who suffered severe burns while at work at the Ulster County Auto Radiator Co. plant, 49-51 Hasbrouck avenue yesterday, was reported in "fair condition" at the Kingston Hospital today. Lovy was rushed to the hospital by his brother Augustus after gas fumes from a tank on which they had been working, ignited, and set fire to the clothing of the injured man. The two operate the shop with their father, Samuel Lovy.

Food Prices Take Jump for 4th Day; Meat, Coffee, Butter and Eggs Included

Chicago, Sept. 9 (AP)—America's shrinking food dollar was being dragged through the wringer again today by a somewhat general advance in staple commodity prices. Except for a reduction of five cents a pound retail for margarine in New York, the general trend was upward in the faster moving race for economic adjustment. For the fourth consecutive day, the Associated Press index of 35 wholesale commodities reached another new all-time high yesterday at 192.26, compared with the 1926 base year of 100. Included in the continued advances were meat, coffee, butter, eggs and corn. Moreover, the dairy outlook was bright from a pretty picture as described by Russell Fifer, executive secretary of the American Butter Institute. The dairy industry, Fifer said, is going into the winter with an exceptionally low supply of butter and cream in storage and with two per cent less milk cows than a year ago. Since the peak milk production in 1944, he added, the number of milk cows has dropped seven per cent while consumer population since the start of the war, has increased 10,000,000, many of them now "in heavy milk drinking ages."

Butter climbed another cent a pound on the New York and Chicago mercantile exchanges yesterday, and a record top of \$31 at the South San Francisco stockyards. Traders at Omaha, Sioux City, Iowa, and East St. Louis, Ill., snapped up the offerings there at \$30 a hundredweight. Although grains in futures trading at Chicago were mostly lower in yesterday's dealings, one cash corn transaction brought a record high of \$2.57 3/4 a bushel. Two of the nation's largest chain grocery concerns boosted coffee two cents a pound retail in New York. Tallows, used by soap manufacturers, was up a cent a pound. Eugene C. Schultz, New York City Commissioner of Markets, gave these comparative retail prices there on a few food items: Porterhouse steak, \$1 a pound, up 31 cents over a year ago; bacon, 79 cents a pound, up nine cents over a year ago; butter 87 cents, up 10 cents since September; large eggs 87 cents a dozen, up 10 cents; chuck steak 69 cents a pound, up four cents; chopped beef 49 cents, up 10 cents; veal cutlets 95 cents, up 20 cents; leg of lamb 65 cents, up six cents. Poultry prices remained unchanged or slightly lower than those of September, Schultz said, with broilers and fryers at 49 cents a pound, off two cents from a year ago, and roasting chickens unchanged at 55 cents.

T.W.U. Has Not Withdrawn Threat for Strike This Week

New York, Sept. 9 (AP)—Local 100, Transport Workers Union (C.I.O.), has not withdrawn its threat to call a strike Friday of 2,100 Manhattan bus employees, but Supreme Court Justice Ferdinand Pecora, after conferring with both sides in the dispute late yesterday, indicated a walkout may be averted.

"I have urged counsel on both sides to constantly keep in mind the legitimate public interest in the outcome of this case," Pecora said in a dictated statement. "Their attitude in response to my request strengthens my feeling and hope that no inconvenience will come to the public, at least until there has been an ultimate decision in the case."

A strike of the drivers of the New York City Omnibus Corporation would affect more than a million Manhattan passengers daily.

Prior to yesterday's conference with the justice, the company had announced it would ask for an injunction to prevent the strike. No mention of that request was contained in Pecora's statement.

Last week-end, the company had made a similar request, when the strike deadline was announced for Monday morning. Action on the request was tabled at a hearing before Pecora, and subsequently the union moved the strike deadline forward.

Both sides refrained from discussion of the status of the dispute after yesterday's conference, the only exception being the brief statement by Austin Hogan, president of the local, that "the strike deadline of Friday, September 12, at 4 a. m., still stands."

The dispute centers on an arbitrator's award concerning pensions. The union contends the award provided for life pensions; the company contends its obligation to pay the pension would end next January when its contract with the union expires, as the arbitrator's award could be binding only for the life of the contract.

The company asked the Supreme Court for a declaratory judgment interpreting the decision.

Pecora said that while he could not devote all his time to the matter, he felt sure that "my decision will be forthcoming within the next few days."

A good house paint must

- Hide the old surface with a new coat of beautiful color.
- It must be elastic enough to expand and contract with temperature changes without pulling apart and leaving minute openings to admit moisture.
- It must be hard enough not to absorb dust or stains.
- It must be resistant to the destructive ultra-violet rays of the sun.
- It must wear down gradually and evenly so that successive coats applied over many years will not build up an excessive thickness that would be objectionable.

Veteran Students Checks Are to Get Priority

Managers of all Veterans Administration offices in New York state were recently instructed to give a top priority to the delivery of an estimated \$200,000,000 in subsistence checks to veteran students during the 1947-48 school year.

In an official communication, the V. A. officials were told, "in matters which involve direct payment of funds to him, the veteran expects fast service. He is certainly entitled to it."

David P. Page, Deputy Veterans Administrator for New York state and Puerto Rico, in a letter to office managers at Brooklyn, New York city, Albany, Syracuse and Buffalo, cited only two other items of V. A. business as being more important than the prompt payment of subsistence to student veterans.

Mr. Page listed the physical rehabilitation of disabled veterans and the delivery of compensation payments to disabled veterans as the two most urgent matters of the New York V. A. agenda. Third on the priority list included in the letter is the delivery of subsistence checks to disabled veterans and to all other veterans studying or training on-the-job under the G. I. Bill.

The Deputy Commissioner said the entry of another peak of veteran students into schools and colleges in New York state this fall will tax the V. A. administrative offices to the limit. He requested the office managers to inform him immediately if any other business interferes with the payment of funds to individual veterans. He promised them "relief from some other function if that will help."

Robber Squeezes Orange to Quiet Baby of Victim

New York, Sept. 9 (AP)—There was a slight holdup during a hold-up in a Central Park West apartment late yesterday, while one of a robber pair squeezed an orange to quiet 11-month-old Susan Antoinette Fayle.

Lt. Cmdr. Eddie Fayle of South Hempstead, Long Island, had taken his wife and daughter to visit his mother, Mrs. Mercedes Fayle. The latter was not at the door to welcome them to the reason that she was tied hand and foot in a storage closet. Instead, they found two robbers. The baby's hungry cries at this juncture moved the robbers to

action. While one remained to guard the Fayles, the other went to the kitchen, squeezed an orange and fed the baby. Then they trussed the commander and put him in the closet with his mother, tied his wife to a chair with the baby in her lap, and left with \$500 in cash and jewelry, police said. The younger Mrs. Fayle freed herself a short time later and summoned aid.

Piece of Ear for \$2.50

Elyria, O., Sept. 9 (AP)—A common pleas jury was told here that William Lallathin bit the end off a garage mechanic's ear because he wouldn't release Lallathin's automobile until a \$2.50 bill was paid. The jury found Lallathin guilty of assault and battery on the mechanic, Elmer Marlett. Now he must pay \$200 and costs and spend 60 days in jail.

Bank Cashier Is Robbed of \$28,000

All State Police in Western New York Mobilized After Holdup

Hamburg, N. Y., Sept. 9 (AP)—The cashier of the Bank of Hamburg was held up in an alley today by three armed bandits who fled with \$28,117, and all available State Police in western New York were mobilized to set up road blocks.

Hamburg Police Chief Norman P. Haas said the cashier, John B. Weber, 37, was en route from the bank to the post office with the money in two packages. He said \$27,500 of the amount was in large bills and the remainder in money orders.

Weber and two witnesses to the hold-up, which occurred shortly after 10 a. m. (EST), told police that one of the men stayed in the

auto while the other two got out and, armed with a submachine gun and a pistol, jostled Weber into an alley.

Weber resisted, Haas said, but the bandits wrenched the packages from him, jumped back into the automobile and fled.

Haas said the cashier identified the auto as a 1941 Buick sedan. The hold-up took place about 300 yards from the Bank of Hamburg and just across the street from the post office. The alley is between the People's Bank and the Main Street Hotel.

State Police in Waukegan said all available men from Troop A with headquarters in Batavia, had been assigned to block highways. They said the bandits were believed to have driven north from Hamburg toward Buffalo, but at 11:30 a. m. had received no definite leads.

street caused many of the property owners to start the movement to form an association of the property owners and store proprietors which will have as its aim the mutual improvement of business properties along the street. As a result the North Front Street Merchants Association was formed. This is a group of the business men of the street who are working to promote and improve the area. The organization is unique in that it has no elected officers and at each of the meetings of the Association there is a new chairman presiding. The only designated officer is Norman Shapiro who was named as secretary to keep record of the proceedings at each meeting.

U.S. Population Is Set at 143 Millions

Washington, Sept. 9 (AP)—The Census Bureau reported today that the population of the United States last April totaled approximately 143,311,000, including about 1,250,000 then in the armed forces.

The bureau said the civilian population, estimated at 142,061,000, represented a gain of 10,392,000 or about 7.9 per cent in the seven-year period since April, 1940.

The largest increase, about 3,427,000 or 24.7 per cent, was reported in the west, with the smallest increase in the south where the gain was 1,107,000 or 2.7 per cent.

loading of the Runnymede Park contrasted with the peaceable debarkation of the refugees aboard the Empire Rival a few hours earlier. The first of the transports, the Ocean Vigour, was emptied, with some violence, yesterday.

Vans and trains left the Hamburg docks with the refugees for displaced persons' quarters in the area nearby. Thus was completed another phase in the Odyssey which began July 10 when the Jews began a futile attempt to reach Palestine aboard the Exodus 1947 from the Port of Seto, France.

Ultimatums Rejected
The steel-helmeted troops undertook the forcible disembarkation of the Jews aboard the Runnymede Park after the passengers rejected two ultimatums to leave peacefully.

When some 300 British troops moved into position for the operation, armed with clubs and wearing tear-gas goggles, many of the Jews began to leave peacefully. But others resisted bitterly.

The troops turned firehoses on the shouting and singing refugees who resisted attempts to force them up from the holds.

Jews who pressed against the barred windows of the police vans bringing them on the last leg of this journey looked bruised and disheveled. Eye-witnesses said the clothing of many was torn. The convoy of vans was accompanied by a bus full of blue-uniformed military government security officers, two military police jeeps and a truck containing about 40 German police.

The Jews will live in Nissen huts and tents, pending screening and disposition.

Many of the young Jewish men continued their resistance all the way down the gangplank and were dragged into the trains or vans.

"This is not the way we want to go to Palestine," one Jew shouted from the crowd of refugees milling in the train pen.

Two train loads of refugees from the Empire Rival arrived at Luebeck-Kuecinitz and moved into the second of two camps set up for them.

Inside the Poppendorf camp, where the passengers of the Ocean Vigour had been taken, refugees were heard singing in chorus and shouting slogans.

Robbers Take \$51,000
New York, Sept. 9 (AP)—Three robbers escaped with \$50,000 worth of gold and platinum and \$1,000 in cash at 11 a. m. today after overpowering Thomas J. Petreli, gold refiner, in his establishment at 11 John street, police of the Old Slip station reported.

New Lipstick Totes Brush

New lipsticks that boast built-in brushes for more artistic application are pictured above. At left, a sable brush is teamed with lipstick in a simulated gold case. Case is banded with a handsome copy of a Florentine wedding ring. At right, top, a holder which pushes lipstick through a sable brush tip has a separate compartment for perfume; center, new case divides space between scented lipstick and vial filled with matching perfume; below, brush slides out of the side of the cover of this gold-encased lipstick.

(Photo at left from Charles of the Ritz.)

Women who've discovered that they can paint on prettier mouths with a brush will applaud the debut of lipstick cases which include this artistic tool.

Many new lipstick cases provide accommodations for: (1) a bullet of rouge, (2) the brush needed for putting it on. One impressively sized "gold and sable" case encircled by a band that copies a Florentine wedding ring first uncups a sable brush, then a lipstick. Its makers say it thus serves the useful function of bringing a lip brush under sanitary cover. It also reduces by one the flock of gadgets that clutter up a woman's handbag. Although this

governor said counties and large cities could raise an estimated \$111,000,000 annually to meet rising educational and other costs.

Dewey rejected demands of several upstate boards of supervisors and other groups for a special session of the Legislature this summer to repeal the legislation.

The State Teachers Association now is considering asking nearly \$100,000,000 additional in annual aid to schools.

Hits at Misconceptions
Breitel said "some persons" had "deliberately engendered" misconceptions, saying that the state had avoided the burden of supporting the raises by creating local taxing powers.

"The fact is," he said, "that the state, in the current year, appropriated sufficient additional emergency aid for school systems to pay on the average of approximately 83 per cent of the teachers' salary increases."

It will "never provide less than 52 per cent of the total cost," although the percentage will be lower than 83 as the increases are put into full effect, he added.

"I will be bold to say that the state administration feels deeply about the principle of added local taxing powers," Breitel declared. "We are just as convinced about it as we are about the desirability and urgency to maintain the kind of society in which we live."

Does Not Elaborate
He did not elaborate on possible technical improvements. Officials of the State Conference of Mayors are seeking revisions. Comptroller Frank C. Moore has said that "something new" will have to be done.

Under the program, counties may levy for educational purposes a sales tax up to two per cent on tangible personal property; a 55 ownership tax on passenger automobiles and \$10 on trucks, excluding farm trucks; a three per cent tax on restaurant meals and drinks over one dollar; a five per cent admission tax; a \$10 tax on vending machines, and not more than 25 per cent of the state fee on retail alcoholic beverage licenses.

Cities of 100,000 or more population may levy any of the tax not used by counties and may use the revenue for general purposes.

Breitel asserted: "We have no patience with the 'gimme artists' who attack the program simply because it rests on that simple rule that what costs money must be paid for and that when government spends, the taxpayer pays."

He said use of state aid or "some purpose other than equalization in the support of municipal services" incurred or encouraged.

156th's Parent Was Active Fighting Group in Nation

The parent organization of the present day 156th Field Artillery Battalion, New York National Guard, which was formed on April 23, 1860, saw constant action down through the years in fighting against the Indians at Montreal, Quebec, Crown Point and Fort Edward under the British colors. Then, when this country was fighting for her independence against the British, the parent unit served with the First Regular New York Militia and participated in most of the engagements against the British by the Colonial Army in New York state.

During the War of 1812, which again found American troops fighting the British, the parent unit was active in the defense of New York city, where it was assigned to the Second Brigade. After the war, the major portion of the organization was demobilized until in 1846 only one company was in existence. This company, which was later designated as Company "D" of the 19th Regiment, during the next three years the regiment was expanded with the formation of E, F, L and I companies of the 19th Regiment.

On June 21, 1860, "L" Company was detached from the 19th Regiment and attached to the 71st Militia as a Howitzer Company for a period of three months, during which time they fought in the Battle of Bull Run.

In the Spring of 1862, they were assigned to the 71st Militia for another three-months period and were present at the Siege of Yorktown, Virginia, and the skirmish of Stafford Courthouse, Virginia. On their return they formed the nucleus of the 124th Regiment, also known as the "American Guard" and the "Orange Blossoms."

The regiment was mustered in again for three years service on September 5, 1862; until they were mustered out on June 3, 1865, the unit saw action in many of the major battles of the Civil War. The unit was demobilized, leaving only Company "C" of the 19th Regiment, which was later redesignated as the 5th and 10th Separate Companies.

Financial and Commercial

New York, Sept. 9 (AP)—Selling dried up in today's market with assorted leaders shifting to the recovery side but exceptions were plentiful.

A bidding flurry developed at the end of the first hour although it failed to follow through. Gains running to a point or more soon were reduced or cancelled and volume tapered. Plus signs, however, were a trifle in the majority near the fourth hour.

Some short covering and quick-turn buying were attributed to the idea that the recent decline called for a technical revival. Persistent doubts regarding international economics, exports and domestic business provided a restraining influence. Reports of moderate foreign liquidation, with more to come because of the growing dollar shortage abroad, served to chill enthusiasm. Soaring commodities and living costs were also viewed as bearish.

United Fruit and Canadian Pacific were propped by pleasing dividends, but other stocks continued to ignore disbursements. Aided in recovery were Bethlehem, Goodrich, Douglas Aircraft, Consolidated Vultee, Anaconda, American Can and Great Northern Railway. Occasional stumblers included U. S. Steel, Youngstown Sheet, Chrysler, Sears Roebuck, du Pont, Union Carbide, Westinghouse, Allied Chemical, Santa Fe and Standard Oil (N.J.).

Most grains were at new highs with July wheat jumping the daily limit of 10 cents a bushel. Bonds were narrow.

President Among Polliwogs Slated For Initiation

Aboard U.S.S. Missouri with President Truman, Sept. 9 (AP)—President Harry S. (Senior Polliwog) Truman fell victim to the war of nerves aboard this equator-bound battleship today.

The Chief Executive and more than 1,600 other Polliwogs—people who have never proved their endurance by "crossing the line"—will have to show their mettle Thursday.

Rumors of what is in store for them spread around the ship as the 350 Shellbacks who will conduct their initiation held secret meetings and whispered cynically in the little groups.

The Missouri was about 270 miles off Ponta Dorela, coastal city of the state of Espirito Santo, Brazil, early today. Extending eastward this coast for 200 miles is a bank known as Abrolhos. Appropriately enough, this is freely translated from Portuguese to mean "keep your eyes open."

Having entered the region of the southeast trade winds, with the expectation of only moderate to fresh breezes, the Polliwogs could find their worries to the arrival of Davy Jones' knight.

Full Report Asked

Washington, Sept. 9 (AP)—The State Department said today that the American Embassy at Paris has been asked for a full report on the arrest of Rabbi Baruch Korff, 33, in connection with alleged plans to "bomb" London Jewish propaganda, pamphlet Lincoln White, director press officer, said that both Korff's father and his brother had talked with department officials by long distance telephone from their homes in Boston. He said they were advised that the Paris embassy, under Ambassador Jefferson Caffery, is endeavoring to obtain all the facts.

Says Way Is Opened

Stuttgart, Germany, Sept. 9 (AP)—Gen. Lucius D. Clay, old German Council of State's today that the way had been opened for Germany to rejoin the "European family of nations." The path, U. S. military governor said, is paved by western Germany's new level of industry recently authorized by the British and American governments. The new plan, Clay said, will enable Germany to "contribute to the European economy."

Will Run Assault

New York, Sept. 9 (AP)—Robert J. Kleberg, Jr., owner of the vast King Ranch of Texas, today agreed to run his four-year-old horse, Assault, in the much-talked of \$100,000 match race against Armed at Belmont Park, September 27.

Admiral's Funeral Tonight

New York, Sept. 9 (AP)—Funeral services for Rear Admiral James Chambers Pryor U.S.N. (retired), 76, who died yesterday at the naval hospital in Brooklyn, will be held tonight at the U. S. Naval Hospital chapel, Brooklyn.

The size of the average Puerto Rican family is 5.5.

Seven Are Arrested At Washingtonville As Still Operators

Barn Three Miles West of Village Raided by State Police and Agent

Washingtonville, N. Y., Sept. 9 (AP)—State police and members of the Treasury Department Alcoholic Tax Unit said today the arrest of seven men charged with the illegal operation of a still which they said deprived the government of \$10,000 in revenue daily.

Lt. H. J. Sanderson of the Monroe State Police Barracks and H. D. Brink of the Federal Alcoholic Tax Unit said the men were taken into custody yesterday following a raid on a barn on the farm of Adam Jodowicz, 40, three miles west of this village.

Sanderson and Brink said they found two stills in operation, 14,000 gallons of mash, 575 gallons of 170-190 proof alcohol in five gallon tins and 10,000 pounds of sugar on a truck. Three were arrested, including additional 28,000 pounds of sugar.

Arraigned before U. S. Commissioner Frank Abbott at Warwick were Jodowicz and his stepson, Francis A. Scott, Jr., 20, who were released in \$500 cash bail; Frank Seimokowski, 38, of Goshen and New York city, Joseph E. Francis, 23, of New York city, Alessandro Mancino, 39, of Bayonne, N. J., and Salvatore Nuccio, 31, of New York city, who were held in Orange county jail in default of \$2,000 bail each. Joseph Clemente, 37, of 64 Patchen avenue, Brooklyn, arrested yesterday afternoon, will be arraigned today.

Woman Is Injured In Auto-Bus Crash

Anna Dzur, of 483 East Tremont avenue, New York, was reported injured slightly in a collision at 6:20 p. m. Monday involving a bus of the Kingston City Transportation Corp. and an auto at Pearl and Fair streets, according to the police.

The bus, the report said, was operated by John Schrader, 74, a suburban area, and was traveling south on Fair street while the auto, operated by Carl Carlson, 488 East Tremont avenue, New York, was headed east on Pearl street when the two collided.

The woman suffered injuries of the left arm and wrist, the report said. The sedan was reported damaged considerably.

Smoke From Range Causes Fire Scare

A heavy volume of smoke from a kitchen range caused a fire scare at 21 Park street at 9:05 a. m. today the local firemen reported. The smoke filled sections of the two-story frame house of Mary Daun at that address, but caused no damage.

Firemen were called at 4:57 a. m. to the warehouse of The Great Bull Markets Inc., 26 Downs street, where a defective sprinkler head had caused an alarm. The firemen reported no fire nor damage.

Would Resign Post

Washington, Sept. 9 (AP)—Assistant Secretary of State Benton is reported to have decided to resign his position as chief of the State Department's public affairs operations, including foreign broadcast. Benton, responsible informant said today, told Secretary Marshall before Marshall went to the Rio conference a month ago that he wanted to resign when the matter could be arranged. Marshall asked him to stay on until after his return from Rio. Benton was scheduled to go to Chicago today for an educational commission meeting Sept. 11 to 13 and may raise the resignation question with Marshall again soon after his return here.

Believe Airman Killed

Norfolk, Va., Sept. 9 (AP)—Two Naval Reserve aviators were believed killed Monday afternoon when a navy plane en route from Floyd Bennett Field, N. Y., to Cherry Point, N. C., crashed in the Dismal Swamp about six miles northeast of Lake Drummond. The T.B.M. was being flown on a cross country training flight with seven other planes from the New York field.

**IMMEDIATE
DELIVERY!**

Florence gives you a heater that really does a job, plus giving your room extra beauty. This combination radiant and circulating heater sends heat into the room in all directions. Has one 3-gallon tank. Handsomely finished in brown porcelain enamel.

\$84.95

A high capacity circulating heater designed for homes where flue connection is available. Efficient and noiseless in operation, this powerful unit spreads a constant circulation of warmed and humidified air throughout the home. It is equipped with one 13" pot-type burner using furnace oil or range oil. Has a 6-gallon tank. Will heat approximately 7,500 cubic feet at 20 degrees above zero. Cabinet is beautifully finished in brown porcelain enamel.

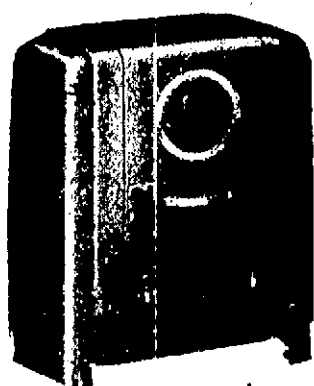

\$115.95

Here is a single burner pipeless model that offers economy with ease of operation. This powerful heater is ideal where a flue connection is not available. It is the non-vented circulating type and can be used in any room. Will heat 11,800 cubic feet at 20° above zero. Has one 15" burner and one 1-gallon oil tank. Brown crackle finish . . . handsome modern design.

\$21.95

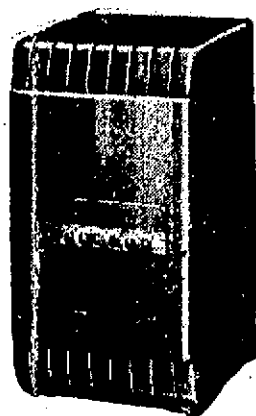

Non-vented, circulating type pipeless heater with all the construction and equipment features necessary for efficient economical operation. It is equipped with two 12" wickless kerosene burners, easily controlled. Has one 2-gallon oil tank. Will heat 3,000 cubic feet at 20° above zero. Attractively designed, it makes a pleasing appearance in any room. Brown crackle finish.

\$30.45

Affording an abundance of clean, quick circulating heat, this handsome cabinet heater is very popular for use in homes where flue connection is not available. It is of the non-vented circulating type, and has two giant 15" wickless kerosene burners, easily controlled and economical. Will heat 3,500 cubic feet at 20° above zero. Brown porcelain enamel finish.

\$47.45

Heat from this Florence radiant heater radiates into the room in all directions. The outer walls form a sealed casing which is connected directly with the flue, and absorbs heat from the powerful burners. Has one 2-gallon tank. Beautiful porcelain brown finish.

\$62.95

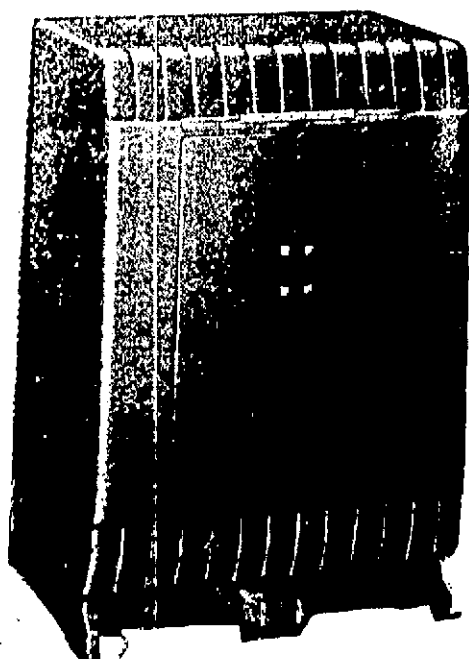

This heater burns furnace oil or range oil very economically and requires a flue connection. A film of oil on the bottom of the burner is easily ignited with a match and forms an oil vapor that mixes with heated air drawn through perforations in the wall of the burner. A "low fire" pilot ring within the burner insures an extra-low flame in mild weather. Porcelain enamel finish.

\$69.95

Here is a heater that maintains an even circulation of warmed and humidified air that flows to all parts of a suite of rooms. One of two powerful burners operate within an inner chamber, which is directly connected to a flue. Between this chamber and the outer casing is an air space. The circulated air does not pass through the burners, but is drawn in at the floor, heated and humidified between the walls, and passes into the room through openings in the upper portion of the outer casing. This heater has two 3-gallon oil tanks and will heat approximately 8,500 cubic feet at 20 degrees above zero.

Special Snack-Bar Invites After-School Bite

An "exclusive" after-school snack bar at home will delight the youngsters

By GAYNOR MADDOX
NEA Staff Writer

When children come home from school, let them have a snack of wholesome food, such as crackers or bread with peanut butter, cheese or jam, plus milk. Nutritionists agree that growing bodies need this after-school bite.

Arrange a special shelf or cabinet as the "snack bar." Let the youngsters do their own making and cleaning up. But keep the snack bar exclusively for them. They'll enjoy its "exclusiveness" and keep it in good use and good order.

Mother might mix up some

wholesome but tasty spreads in advance to go on crackers. Such as:

Peanut Butter With Orange
One-third cup peanut butter, 3-ounce package cream cheese, 1 tablespoon orange juice, ½ teaspoon grated orange rind. Blend peanut butter and cheese; add remaining ingredients; mix well.

Bologna
One-half cup ground bologna, 1 chopped hard-cooked egg, 2 tablespoons sweet pickle relish, 1 tablespoon minced onion, 2 tablespoons mayonnaise, ¼ teaspoon salt. Combine all ingredients and mix well.

Tuna Fish

Seven-ounce can tuna fish, tablespoon sweet or dill pickle relish, 2 tablespoons minced onion, 3 tablespoons mayonnaise, salt and pepper to taste. Flake fish; add remaining ingredients and mix well.

Chili Cream Spread

One-half cup cream cheese, 2½ tablespoons chili sauce. Combine ingredients, mixing well. Keep a supply of crisp crackers, tiny twisted pretzels, wheat toast, graham, etc., in the snack bar.

New Type Surgery Converts Palm Into Thumb, Finger

By HOWARD W. BLAKESLEE
(Associated Press Science Editor)

New York, Sept. 9 (AP)—New surgery that takes a hand which has lost all fingers and thumb, and converts the palm into one big thumb and one large finger was reported to the American College of Surgeons here today.

The hand itself is partly divided to produce the two new digits. Divisions have been done before, but the new operation retains the sense of touch and use of the muscles so that the dwarf hand can do most useful tasks that require grasping.

The operation was reported by Doctors James B. Brown of St. Louis, Bradford Cannon of Boston and Walter C. Graham of Santa Barbara, Calif.

The thumb in the all-important number of this new hand. It is made by combining the stumps of the lost thumb and lost forefinger. The part of the forefinger bone remaining in the hand is used to attach to the remaining position of thumb bone. The two are set so that the stump of thumb extends out, not as far as the original thumb, but retaining all the nerves and muscles. A cleft is made in the hand between positions of first and middle fingers, so that the side of the hand works as a finger very broad and flat, but capable of sensing and helping to grasp or pick-up things.

New Type Disease Found
Discovery of a heretofore unknown lung disease and a surgical cure for it was described by Dr. Everts A. Graham of St. Louis. The disease is infection that shuts off the middle lobe, or section, of the right lung. It is a result of pneumonia.

Dr. Graham said that before the use of penicillin this lung trouble probably killed the patients, with death attributed to pneumonia. With penicillin these people recovered from pneumonia. But they remained semi-invalids. X-rays revealed the dead section of lung and in 25 such cases found so far, all have recovered after an operation that removed the damaged section. Dr. Graham said the recovery is quick and dramatic.

A discovery by Dr. Harold Neuhof of New York was reported to have cut the death rate from lung abscesses from 45 per cent to one per cent. This is a method of injecting dyes and using X-rays to discover the abscess in early stages. If the abscess is drained early, Dr. Neuhof reports, the patient usually recovers.

New Tuberculosis Surgery
New surgery for tuberculosis was described by Dr. Richard H. Overholt of Tufts Medical School, Medford, Mass. It is used for people who cannot be cured by any other methods. The diseased parts of the tubercular lungs are removed by surgery. This is something that surgeons have been trying to do for nearly 50 years with no success until recently. The percentage of tubercular patients who can be cured by surgery is very small.

From Yale University came a report of a new way of discovering stomach cancer early in the stage when it is most likely to be curable. The report was by Drs. Thomas H. Green, Jr., Howard Uffelder and Ruth M. Graham of the Vincent Memorial Hospital Laboratory of the Massachusetts

young Negro college girl who had an opening in her stomach due to an accident enabling doctors to look into her stomach in action. She is the fifth person of this kind to be reported in medical history. The report was made by Drs. Russell J. Crider and Shepard M. Walker of Washington School of Medicine, St. Louis. They studied her to see what would happen when she ate amino acids which are the chemicals that make protein foods of all sorts. This study was interesting because amino acids are now regularly fed to sick people who are unable to retain ordinary foods. The amino acids had a soothing and restful effect upon the stomach of this girl.

Good Taste Today

By Emily Post

(Author of "Etiquette," "Children Are People," etc.)

REPLY TO READERS
To those who protested against my approval of a lady whistling if ever separated from her friends in a dense crowd, an alternative is for her to take off her hat and hold it up at arm's length.

Trained Nurse at Table
Dear Mrs. Post: When a trained nurse is seated at the family table, is she expected to stay at the table until the family leaves? Or may she ask to be excused? If she may be excused, what does she say before leaving the table and to whom does she say it?

Answer: During the severe illness of her patient, she may ask the lady of the house to excuse her in order to return to her patient. Later on, when her patient is convalescing, she probably would remain until the end of the meal.

Nickname Not Engraved

Dear Mrs. Post: I'm only 15 now, but I'm a junior in high school and will be running into a name question in another year. I am "Jack" to everyone, although I was given the name of "John." Next year I will have to order visiting cards to send with our graduation announcements. I'm told that on visiting cards it is improper to use any name but "John." I can't understand why. Announcements will be going to a lot of people who don't know me by any name but "Jack."

Answer: A nickname never should be used on visiting cards. No one could possibly fail to understand that "John" means "Jack."

Attendant for a Foreign Bride

Dear Mrs. Post: Who should serve as maid of honor when the bride is arriving from Europe and has no friends here in this country. The wedding is taking place in the groom's church and there will be a small family gathering at his parents' house afterward. He has no sisters of suitable age to take part in the wedding.

Answer: A cousin or a girl the

bridegroom has known all his life would be suitable.

What kind of paper—size, shape and quality—should be used for social purposes? This is one of the many questions answered by Mrs. Post in her booklet No. 502, "Letter Writing," obtainable by sending 10 cents (coin preferred) and a 3-cent stamp to her, c/o this paper, P. O. Box 98, Station G, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal mail. (Released by The Bell Syndicate, Inc.)

Stork Toy Shower

A stork toy shower was given for Mrs. George Krom at the home of Mrs. Frank Tigar, 220 East Chester street recently with Mrs. Fred Hamilton as hostess.

Guests were the Meses, Charles Kelder, Donald Weeks, Laurence Shultis, Laurence Winchell, James C. Legg and Joseph Tubby.

St. Mary's Rosary Society Card Party

Plans for the annual card party were made at the regular meeting of St. Mary's Rosary Society Monday night. The party will be held Wednesday, October 8, and committees have been appointed.

Mrs. Alice Ahl is general chairman with Mrs. Ann O'Rourke as co-chairman. Other chairmen are Miss Agnes Noonan, tickets; Mrs. Mary Golgoski, floor; Mrs. Golneir, refreshments; Mrs. Elizabeth Murdock, decorating; Mrs. Gertrude Groene, Mrs. Angeline Carputo, Miss Frances Jordan, miscellaneous; Mrs. Esther Tierney, Mrs. Agnes Halloran, reception.

Barone-Dawson Main Bout Has Big Pull at Box Office for Thursday

B'nai B'rith Card Stacked With Good Action Scrappers

Ever since the announcement that Tony Barone would have Bobby Dawson as his opponent Thursday night in the main bout on B'nai B'rith's card, ringside seat reservations have been heavy. Dr. Murray Greene, ticket chairman, opined today that the Kingston Municipal Auditorium would be packed for the show, featuring Barone and Dawson, supported by an attractive card, stacked with bantamweights who give a lot of action.

Boxing Chairman Dr. Saul Goldfarb said Dawson, metropolitan champion, is exceedingly anxious to get a crack at the Schenectady welterweight, who probably could take a lot of the professionals over the hurdles, but good.

Dawson was eliminated in the quarter finals of the National A. A. U. tournament at Boston by Barone, who was awarded a split decision.

"I think I won," the New York city boy remarked, "and have been waiting for another crack at Tony. He's a great fighter. If I can get by him, I know my stocks will hit a new high as an amateur."

To Barone, who has fought them all, Dawson is just another contender. When he was asked if he'd meet him in Kingston, Tony remarked, "Bring the boy on, I've never ducked anybody. All I ask is that he stand up and fight."

According to Ben M. Becker, director of bouts, Dawson has a victory to his credit over the highly touted Columbus Lowman, who has pleased local fans, and a knockout over Sid McDonald, pride of Glens Falls, now a professional.

Other top ranking matches for Thursday are: Frankie Alvarez, 118, Schenectady, recently back from Hawaii where he represented the United States, vs. Al Hunter, New Yorker, runner-up in the Golden Gloves.

Russ Dunsy, Gary, Ind., Chicago Golden Gloves winner in 1946 and 47, Jimmy Hamilton, New York city, who boasts of a decision over Jake Lindsey, metropolitan champion.

Pat Saruth, 116, Schenectady vs. Howard Keyes, Ulster star. There will be three three-rounders, the first preliminary starting at 9 o'clock.

FIGHTS LAST NIGHT

Chicago—Abel Cestac, 222½, Argentina, outpointed McKinley English, 204½, Detroit (8). London—Freddie Mills, 172½, Great Britain, stopped Pol Goffaux, 172½, Belgium (4).

For Formal Occasions You want the best. It's Utica Club Old English Brand Ale. Brewed from choice ingredients, aged extra long. Costs more... worth it. At taprooms, grills, groceries.

Yanks' Drawing Power May Run to 2,500,000 for 1947

By JOE REICHLER

Associated Press Sports Writer

The magnetic New York Yankees, only baseball club to lure 2,000,000 fans past the turnstiles in a single season, not only have repeated the stunt today, but give promise of making it two and a half million before the season is over.

With 53,101 coming out to the Yankee Stadium to watch last night's lussie with the Cleveland Indians, the Yankees now have attracted 2,023,643 paid admissions in 62 home games. That is an average gate per game of 32,639. Should the same attendance prevail for the remainder of the home season, the Yankees, with 15 more to play at the stadium, should wind up with something like 2,500,000. Last year the club set a record of 2,265,512 admissions.

Yesterday's crowd was treated to a brilliant bit of relief pitching by Bob Feller, the Indians' great right-hander, who saved a 4-3 victory for Bob Lemon with some tremendous clutch hurling. Rapid Robert came to the rescue of Lemon in the last of the ninth with the Yankees having runners on first and third and nobody out.

Feller promptly forced Billy Johnson to raise a soft pop to Third Baseman Ken Keltner, got Aron Robinson on a tap in front of the plate and ended the game by fanning Phil Rizzuto. Joe Di-

Maggio and George McQuinn had opened the inning with singles off Lemon.

Still Need Eight

The defeat left the Yankees still needing a combination of eight wins and Boston Red Sox losses to clinch the flag. Lemon, who limited the Yankees to six hits in notching his eighth victory against four defeats, batted in the winning run in the eighth with his third single of the game. He scored Hal Fack, whose pinch hit double earlier in the inning had tied up the game. The blows came off Bobo Newsom who dropped his 10th of the year. He has won 10. McQuinn accounted for the first seven Yankees runs with successive home runs in the second and fourth innings.

In the only other game played in the majors the New York Giants spotted the Pittsburgh Pirates eight runs in the first seven innings then went on to win 10-8. Held to two singles for seven innings the Giants pounced upon Fritz Ostermuller for seven runs in the eighth and knocked over three more in the ninth to win. The big blow was Lloyd Gearhart's two-run homer in the ninth which put the Giants ahead 9-8.

Mize Falls Behind Johnny Mize failed to hit a homer and thus fell three behind Babe Ruth's pace-setting record of 60.

The Brooklyn Dodgers and St. Louis Cardinals, both idle yesterday, begin their final drive for the National League flag today, the front running Brooks taking on the Cubs in Chicago in the first of a 10-game swing through the west. The Cards are host to the Philadelphia Phils, the first of four eastern invaders. The Brooks, leading by five and a half games, have 18 games left to play, 14 on foreign fields. Of the Cards' 21 remaining games, 14 are at home.

West Point Is Determined, But Not Cocky, Blaik Says

West Point, N. Y., Sept. 9 (AP)—Army, the college football team with the most glittering record of modern times, will enter the 1947 season with only three starters from its great 1946 team.

"We will be outperformed in seven of our nine games," says Coach Earl H. (Red) Blaik. "But we are still the national champions until we are defeated."

There is no defiance at West Point. It would be difficult to take such a pose when gone are Glenn Davis and Felix Blanchard, three-time All-America backs; Arnold Tucker, a mighty quarterback; Hank Folsberg and Barney Poole, indestructible ends; and such line stalwarts as Art Geronetta, Sheldon Biles, and Jim Enos.

On the other hand there is a feeling of solid confidence in the ranks of those who follow the practice sessions of the big, rangy Army squad.

"We are building our line around Capt. Joe Steffy and Goble Bryant, and our backfield—at least from the viewpoint of experience—around Bill Gustafson, Bobby Stuart and Elwyn Rowan," says Coach Blaik.

Of these, only Steffy, Bryant, and Rowan were 1946 starters, and Rowan, although a highly capable ball-carrier, was little heard of in that stellar backfield. The remaining lettermen available to the Point are Ray Drury, guard; Harvey Livesey and Bill Yeoman, centers; and Jim Rawers, end.

28 Games, No Defeats

Over the past three years Army has played 28 games without defeat, but one of these was a scoreless tie with Notre Dame last year. This year's Notre Dame game has been moved from New York to South Bend to get away from what authorities of both schools felt was an unwholesome atmosphere of heavy betting. And with the playing of Notre Dame at South Bend, the famous series between the two gridiron powers will be temporarily ended.

Bob Winne Slated For Hartwick Grid Play This Season

Bob Winne, 205, tackle from Kingston, is being counted heavily upon by Coach M. B. Banks of Hartwick College for this year's football team, a press release revealed today.

Winne is one of the returning linemen billed to start the season for Hartwick. Banks will be minus 13 lettermen from last year's gridiron squad.

Hartwick will open a 10-game schedule Saturday, September 27, by playing Brockport State in a night game at Onondaga's Neawha Park.

The rest of the schedule follows: October 3—Lowell Textile at Lowell, Mass.; October 7—Arnold; October 11—Hamilton at Clinton; October 18—Upsala; October 25—Cortland State; November 1—Susquehanna; November 8—Ithaca at Ithaca; November 15—Alfred; November 22—Wagner at Staten Island.

Kingston Eliminated

(By The Associated Press)

Kingston, North Atlantic League leaders at the end of the regular season, was eliminated from the league's post-season playoff last night, losing its fourth game of a seven-game series to Peekskill 5 to 1.

In the other semi-final series, Mahanoy City defeated Carbondale, 4 to 1, to reduce Carbondale's margin to three games to two.

No games will be played tonight because of Election Day in Pennsylvania. Mahanoy City will play tomorrow night with Peekskill idle until that series is settled.

ber 1—Susquehanna; November 8—Ithaca at Ithaca; November 15—Alfred; November 22—Wagner at Staten Island.

Walker and Williams Likely Bat Champs

New York, Sept. 9 (AP)—Harry Walker appears a cinch to win the National League batting crown while Ted Williams has improved his chances of copping the American League title.

Walker, the fleet-footed outfielder of the Philadelphia Phillies, added two points to his total in the past seven days to increase his top mark to .336, leading second place Phil Cavaretta of Chicago by 36 points. Frank McCormick of Boston is hitting .332, only four points behind Walker, but it is questionable if he will be at bat enough times to receive official recognition from President Ford Frick of the National League.

Williams, the Boston Red Sox slugger, slipped three percentage points but his .337 gave him 10 points on the field on the basis of averages including Sunday's games. Williams actually gained a point as runner-up Dale Mitchell of Cleveland dropped four points to .327. Ted collected nine hits in 30 times at bat while Mitchell batted 11 in 38 appearances.

Taft Wright of Chicago's White Sox moved into third place by upping his average 10 points to .325, three points ahead of Barney McCosky of Philadelphia and Joe DiMaggio of New York, tied for fourth at .322.

Other leaders are Johnny Pesky of Boston, .321; Lou Bourque of Cleveland, .319; George Kell of Detroit, .312; Luke Appling, Chicago, .311 and George McQuinn, Yankees, .302.

Walker, younger brother of Dixie of the Brooklyn Dodgers, belted nine hits in 22 times at bat in the week to stay far out in front of Cavaretta who took over the runner-up slot with .320. Augie Galan of the Cincinnati Reds was third with .319, Pete Reiser of Brooklyn fourth with .316 and Walker Cooper of the New York Giants fifth with .314.

Others rounding out the big ten included Bob Elliott, Boston, .310; Tommy Holmberg, Boston, .309; Kiner, Pittsburgh, .308; and Dixie Walker, Brooklyn, .308; and Frank Gustine, Pittsburgh, .307.

Stauble's Defeat Frank's, 7 to 3; Hurler Hits Homer

Scoring two runs in the third, fourth and seventh innings plus one in the opening frame, Stauble's Bakery nudged the Frank's Sport Shop nine by the 7 to 3 count in a game played Sunday.

R. Lucas went all the way for the winner and helped his cause by smacking out a homer. He allowed the losers six hits. Yadke also pitched the full nine innings for Frank's. He was touched for 13 base knocks.

Felipe, third sacker for the winners, led the batters with three hits in five trips. Slight, B. Watzka, Stauble and Sheehan each poked out a pair of bingles while DuBois collected a brace for Frank's.

Man, Ready to Die, Warns Against Crime
 Chicago, Sept. 9 (AP)—Ernest Gaither, Jr., 23 year old negro, who says he never worked, always had lots of money and was "tough" and a "big shot," has written a message to "boys" warning them against a career of crime. Gaither, who is scheduled to die in the electric chair Friday morning, handed a crudely-penned note to Warden Frank Sain yesterday after the Illinois Supreme Court declined to interfere in the execution. He was convicted of slaying a liquor store owner in a 1930 holdup last February 9.

In his note, Gaither related he was a holdup man at 16 and "boss of a gang of tough guys. Two or three grand on me all times." Of the eight in the gang, seven are in prison and one died in the electric chair.

He wrote he had been sentenced to reform school, escaped; was sentenced to prison and served more than five years. Six months after he was paroled in June, 1946 he was head of another gang of robbers.

"Any fool can put a gun in his hand and do wrong," Gaither said in his message. "Easy money is no good. It come easy, it go easy. It takes a man with guts to get a job and work for what he want."

"The law will get you if you don't get that give out of your head that you can make crimes pay. I am just sorry that I couldn't see it this way until it was too late. My life will be taken from me but soul is going to rest with God in Heaven. That will be my next home, and I am so happy that I am ready to go."

Joe Watzka Leads Oilers With Stick, Club Ends 13-6
 Joe Watzka, slugging catcher of the Berardi Oilers in the City Softball League, leads his team in batting with a .493 average. Johnny Berardi is runner-up with .460, with Tommy Martino in third place, having registered .425.

In the extra-base department, Joe Watzka and Johnny Berardi slugged out 4 homers apiece. Milly Berardi came up with 3 triples and Joe Watzka and Lou Berardi had 7 two-base hits each.

Man, Ready to Die, Warns Against Crime
 Chicago, Sept. 9 (AP)—Ernest Gaither, Jr., 23 year old negro, who says he never worked, always had lots of money and was "tough" and a "big shot," has written a message to "boys" warning them against a career of crime. Gaither, who is scheduled to die in the electric chair Friday morning, handed a crudely-penned note to Warden Frank Sain yesterday after the Illinois Supreme Court declined to interfere in the execution. He was convicted of slaying a liquor store owner in a 1930 holdup last February 9.

In his note, Gaither related he was a holdup man at 16 and "boss of a gang of tough guys. Two or three grand on me all times." Of the eight in the gang, seven are in prison and one died in the electric chair.

He wrote he had been sentenced to reform school, escaped; was sentenced to prison and served more than five years. Six months after he was paroled in June, 1946 he was head of another gang of robbers.

"Any fool can put a gun in his hand and do wrong," Gaither said in his message. "Easy money is no good. It come easy, it go easy. It takes a man with guts to get a job and work for what he want."

"The law will get you if you don't get that give out of your head that you can make crimes pay. I am just sorry that I couldn't see it this way until it was too late. My life will be taken from me but soul is going to rest with God in Heaven. That will be my next home, and I am so happy that I am ready to go."

Overpayments Are Beyond 500 Million On War Contracts

Accounting Office Leader Says Top Sum Was Received by Plane Manufacturer

Washington, Sept. 9 (AP)—Rep. Bender (R-Ohio) today estimated overpayments on canceled war contracts have totaled nearly \$500,000,000 and said a public explanation will be demanded of companies which fail to return the money.

Bender is the chairman of a House expenditures subcommittee investigating contract terminations which was called into session today.

As the first witness, E. L. Fisher, an official of the General Accounting Office, filed a report listing overpayments which he said ranged as high as \$650,355. The top sum was received by an aircraft manufacturer Fisher did not identify.

Bender said the committee "will watch closely the effectiveness of the federal agencies in securing recoveries by voluntary means" in overpayment cases where no legal machinery for recovery now exists.

"If recoveries are not effected during the next six weeks," he said in a statement, "the subcommittee will summon representatives of the individual companies which have received the largest overpayments to present their reasons for not making a return of money which they have received from the government which was not properly due them."

Will Question Officials
 He said the committee will question Justice Department officials Thursday concerning prosecution of cases in which the general accounting office has reported actual fraud.

A review of contract settlements, he said, shows that excessive payments in which no fraud was apparent exceed the amount of actual fraud.

Bender said a sampling of one and one-half percent of settlements indicated overpayment of more than \$6,000,000, with the total likely to reach half a billion dollars.

The committee, he said, "is concerned not only with exposing an evil to be remedied immediately, but also with the improvement of

Farbens Accused Of Aiding Climb Of Hitler's Regime

Nuernberg, Germany, Sept. 9 (AP)—The giant I. G. Farben industrial empire was accused today before an American war crimes court of promoting unemployment in 1932 to help Adolf Hitler's National Socialist (Nazi) party into power in Germany.

Hermann Fritz Ruther, a Farben employee from 1927 to 1946, made the accusation in a statement introduced by the prosecution to bolster charges that Farben backed the Nazis from the start in the hope of rearing Germany for war and cashing in on the venture.

As the trial resumed after a four-day recess, the court president, Judge Curtis Shaker, announced that the case against Max Brueggemann, a Farben director, would be dropped. This reduces to 23 the number of defendants. Brueggemann is in a Dortmund hospital suffering from a serious heart condition.

Ruther's affidavit gave this appraisal of the Farben people's awareness of Hitler's early plans: "The reconstruction of the Wehrmacht (German army) made it clear to us that the course pursued by Hitler had to lead to war. Dr. Dehnelt (Farben expert), a consistent opponent of Hitler, said to me in 1934 that the Nazi system inevitably would lead to war. This was my opinion too, as well as the general view of the intelligent employees.

"We were aware of the purpose of the rapid development, the enormous expansion of hydrogenation, the founding of new synthetic works."

Referring to Farben's role in the 1932-33 period when the Nazi rocketed to power, Ruther said: "After the setback the Nazi party suffered at the elections of Nov. 6, 1932, a great number of Farben Leuna employees were laid off. It was generally believed that this number greatly exceeded the scope of the reduction necessary."

MODENA

Modena, Sept. 9—Miss Dolly Siregola of New Paltz, formerly of Modena, was given a surprise bridal shower Saturday evening of the past week at the home of Mrs. Bapa in the Bronx. Miss Siregola lived on the former Stittgen place in Modena, prior to the Siregola family moving to New Paltz, where they are proprietors of the New Paltz diner.

William Decker of this place is a brother surviving Mrs. Mary Halliday, 67, of Ohioville, who died at her home there, after a long illness. Funeral services were held Saturday at the V. T. Fine Funeral home in New Paltz. The Rev. Gerritt Wulfschlaeger, pastor of the New Paltz Reformed Church, officiated. Burial was in the New Paltz Rural Cemetery.

Modena Home Bureau unit was represented at the annual fall rally of the Ulster County Home Bureau, held Wednesday at the Earl Egan Town Hall, when approximately 150 women were in attendance. Mrs. Fank Coy of the local unit reported on sending "Care" packages to people of Europe, in memory of Donald L. Paltridge, who lost his life in service overseas.

Mrs. and Mrs. Raymond Markle of Krumville visited Mr. and Mrs. Ross Brown and family last weekend.

Mrs. Chester Ackhart of the Clintondale road, accompanied Mrs. Bessie Gerow of New Paltz to Kingston on Saturday, where they were overnight guests of Mrs. Leslie Ackhart and daughter Louise. Mrs. Leslie Ackhart sustained injuries recently in a fall at her former home in Clintondale.

Farmers in this section are filling their silos and harvesting fruits.

Blight Epidemic Attacks Melons, Cucumber Vines

Ithaca, N. Y., Sept. 9 (AP)—Blight of "epidemic proportions" has struck melons and cucumbers in upstate New York for the first time on record, Prof. Charles Chupp, plant pathologist at Cornell University reported today.

The blight, which he identified as downy mildew, usually occurs on Long Island and other seaboard areas, Prof. Chupp said. He added that only isolated cases previously had been found in other parts of the state.

Reports of dying melon and cucumber vines have been received at Cornell from all over the state for the past two weeks. Prof. Chupp advised that in places where the blight was not severe, vines should be sprayed and dusted with copper immediately.

Boy Scout Drive Opens; to Build Memorial to Lindin

Woodstock, Sept. 9—The Rev. Harvey I. Todd opened the fund raising campaign for the Boy Scouts of America in Woodstock and West Hurley at a dinner meeting given last night at the Town House, Woodstock, and announced that the fund raised this year in Woodstock would be used as a memorial to the late Carl Eric Lindin.

"Many of us knew him very intimately," Mr. Todd said, "and appreciate the great work he did in this community. He was a community-minded man and not many of you realize the flags you see here tonight were his gift when the Woodstock troop was organized in 1933. Mr. Lindin used to help us a great deal in our financial campaigns, when he collected large sums of money. His own boy was a scout, active in those years, and Mr. Lindin was tremendously interested in the young people. He served as school trustee and initiated a program of school improvement which has been carried on very successfully ever since."

The memorial will be called the Lindin Memorial and will be erected at Camp Trinitum, the Boy Scout camp. It is estimated that the memorial can be erected at a cost of approximately \$1,500. "This choice is fortunate indeed," continued Mr. Todd, "because I know Mr. Lindin, who was an artist himself, interested in fine handicraft work, would be very pleased if he were alive today, to see this sort of thing going on successfully through this campaign."

Scouters Are Present
Many scout officials were present at this meeting and were called upon following the dinner for comments regarding their work in scouting.

Harry Rigby, Kingston, Assistant Scout Commissioner, Ulster-Greene County, complimented Woodstockers on the pleasant congenial town in which they live. "The town," said Mr. Rigby, "has a world-wide reputation and you folks around the table are largely responsible for that reputation, but you must depend upon the children and neighbors' children to carry on for you. You have laid the ground work for them to be the kind of adults you desire. In this work you have been assisted by church and schools as well as by your Boy Scout organizations."

Mr. Rigby commended the group for their idea of raising additional funds this year for a Lindin Memorial Craft Hall at East Jewett. "Such a memorial," he said, "will last through the generations and will be a fitting tribute to the memory of Carl Eric Lindin."

During the past year, 20 new units have been organized in Ulster-Greene counties, one of which is the West Hurley troop. This is the largest number of new units organized in any given year.

The Boy Scout budget for this year is \$23,000, which is slightly more than last year but said Mr. Rigby, "I think this speaks well for management and the thriftiness of management in view of the tremendous increase in prices all along the line."

Mr. Rigby reviewed the tremendous accomplishment during the past two years in building Trinitum Camp which according to the speaker will undoubtedly take from five to 15 years to achieve the kind of camp they all wish to have.

Other speakers were Lee Decker, district chairman of the Mountain District, Earl Allyn, who said that while 132 boys attended the camp during its first year, this past year 452 boys enjoyed the camp facilities.

"One thing I like about Woodstock," continued Mr. Allyn, "is that you can start an argument with anybody, any time, any place and on any subject. I wish we had a little more of that spirit in Kingston. We need it." As an example of the benefit which accrues to a community through scouting, Mr. Allyn cited the case of Scouts Morton Taylor and Richard Bunney, who saved the life of Billy West a few years ago. He also quoted some statistics on the cost of delinquency with its heartaches as compared to the cost and good of scouting.

Money Is Needed
The assembled workers were reminded that scouting needs more than money, and that good will and friendship were very valuable to scouting. Not everyone can contribute money to the cause of scouting, but a statement made by Mr. Allyn, who remarked too, that "we have no quota . . . our quota is the best we can do."

When Bell Morrow was called upon as chairman of the camp committee, he did not miss the opportunity to give his home town of Maplecrest a good chamber of commerce boost, and said if every community in Greene and Ulster counties would work like the Woodstock committee, they would soon have a very fine camp for the boys.

A moving picture film titled A Day at Camp was shown by Walter Tremper. The pictures were taken on the occasion of the dedication service for the Kay Bee Lake. "This artificial lake, four miles in length, was made possible for the camp through the generosity of Henry and Herman Knaust. The story of a boy's day at Camp opened with the sign of Camp Trinitum which was specially designed for the Scouts by Sam Wiley of Woodstock. The film showed a nature study class, rifle range where the scouts are taught to handle a gun safely, initiation in Swagold Indians which the narrator said was the ambition of every scout, swimming, canoe tilting contest, archery, general store and the special event of having Chief Carey Bull talk on Indian lore and perform a tribal dance, tall stories, retreat of the flag, and the bugler ended the day.

Those attending the dinner which marked the opening of the Boy Scout campaign were Walter Kemper, member of Council Camp Committee; Bell Morrow, in charge of camp for the whole county; Harry Rigby, assistant scout commissioner, Ulster-Greene county; Earl Allyn; Fred Toms, committee chairman, Woodstock Group; Alfred Daiber, Justice George Braendly; Earl Snyder, president of the Square Club, which sponsors the Cub Pack; Fred Mower, Stephen Todd, John Pike, Dave Huffine, Walter VanWageningen, school principal and scoutmaster; Roy Constant, Fred Lee, cub master; Ken Paxton, scoutmaster newly organized West Hurley troop; Mrs. Freer, Mr. Courtney and Mr. Greenberg, all of West Hurley; Marion Bullard; Mrs. Edith Heckerroth; Warren Huty, secretary of the committee; Clifford Carnright, committeeman and vice-chairman of the district; Miska Petersham, Isabel Doughty and Mr. and Mrs. George Hard.

The campaign in Woodstock and West Hurley officially opened today and will continue until Friday. A list of persons to call on was given to each worker who was asked to solicit their contributions without delay.

New York, Hurley Group Discusses Assessment Today

A meeting of the Board of Assessors of the town of Hurley was scheduled with representatives of the City of New York to review the assessment laid against city property in the town. The meeting was called for 1 o'clock at the town hall in West Hurley for the purpose of permitting city representatives to produce before the assessors of the town information regarding the value of New York city reservoir property within the town in order that the assessors may determine whether the \$2,000,000 assessment is erroneous and illegal as claimed by the city.

The proceeding is taken under the Tax Law, which provides that where it is contended an assessment is excessive the assessors may request the protesting party to produce facts and figures to indicate the basis upon which the claim is based.

Following a protest by the City of New York that the assessment was excessive, the assessors sought to have the matter heard. Several adjournments were taken and the matter finally set down for today at 1 o'clock. At the conclusion of the hearing the assessors may either reduce the assessment, increase it or permit it to stand depending upon the facts which are produced before the Board of Assessors by the protesting party.

N. LeVan Haver and John E. Egan appeared as counsel for the town of Hurley.

Proposal Is Made Lake Success, Sept. 9 (AP)—Soviet Russia proposed today that the United Nations Police Force have 12 divisions of troops, 1,200 planes and five or six cruisers.

Russia did not propose any battle-ships or carriers for the U.N. force. The figures were submitted by the Soviet delegation to the U.N. military staff committee as Russia's estimate of the size and strength of the forces to be put at the disposal of the Security Council by the U.N. members.

Huge Rocket Is Given Ship Test By Carrier Midway

Admiral Says Launching Marks New Era in Naval Weapons; Results Secret

By JAMES J. STREIB

Washington, Sept. 9 (AP)—Naval warfare entered an awesome new phase with the first shipboard firing of a 15-ton V-2 rocket in a secret week-end test by the carrier Midway far out in the Atlantic Ocean.

The navy provided few details but quoted its top expert in guided missiles, Rear Admiral D. V. Gallery, as saying "This launching will mark the beginning of a new era in naval weapons."

Although the test rocket exploded after traveling only six miles, the experiment indicated land targets could be pounded with such projectiles from warships operating far offshore.

The Germans were firing the 46-foot V-2S up to 200 miles toward the end of World War II, when they concentrated the big weapons on London and Antwerp.

Last night's navy announcement did not say whether the early destruction of the test rocket Saturday was pre-arranged, but an officer speaking privately indicated the plan had been for a flight to maximum range. The Germans had frequent premature explosions with the V-2, and this was one of the captured missiles.

The firing from the 45,000-ton Midway was witnessed by "leading military and civilian personnel in the field of guided missiles," the navy said.

Planes Take Part
It added that immediately after the launching, the Midway's aircraft took off to complete the demonstration of the feasibility of combining rocket and aircraft warfare.

The navy gave no indication of what modifications were required on the Midway to launch the V-2. Here are some considerations, however:

The Midway-class carrier has a deck of heavy armor plating, and thus would be well equipped to hold the weight of the missile and to withstand the heat at launching.

The hot blast of the rocket would obviously be a serious problem, which the navy may have solved by locating the launcher

near the deck edge and sending the blast into the sea.
Because of its mass the Midway rides steadily, and when it does pitch and roll the motion is slow. It would be possible to launch with reasonable accuracy from the deck, as some officers said privately they believed was done. However, for wartime purposes, the launching platform could be gyroscopically controlled as are the carrier's guns.

Rejection Is Asked

Washington, Sept. 9 (AP)—The Public Service Commissions of the individual states today asked the Interstate Commerce Commission to reject the railroad's request for an immediate 10 per cent freight rate increase to offset rising wage and operating costs. The rejection was requested by the National Association of Railroad and Utilities Commissioners after Jacob Aronson, vice president of the New York Central railroad, had pleaded with the I.C.C. to grant the 10 per cent boost "before the day is over."

Taft Is in Chicago

Chicago, Sept. 9 (AP)—Senator Robert A. Taft (R-Ohio) stopped off in Chicago between trains today before heading west on a 25-day political "pulse-taking" tour. Before leaving Columbus last night he was informed by Ohio Republican leaders that "very encouraging" reports had been received on his probable campaign for the presidential nomination.

Teen-Ager Held For Garment Theft From Wash Lines

Local police today announced solution of a series of thefts of women's garments from clothes lines in the city, and three burglaries, following the questioning of a "teen-aged" youth.

The announcement followed discoveries of Detective Wesley Cramer and Clarence Brophy who had been investigating the thefts since the first was reported several weeks ago.

A box of loot which was brought to headquarters contained items of women's under apparel, which had been reported missing from clothes lines in the uptown sector of the city. Some had also been taken from homes in the area.

They were found, the officers said, under a culvert on Warren street with an assortment of other articles, which the officers said, the youth admitted he took.

One of the more valuable articles which the youth said he took, according to the officers, was a \$100 blanket which was reported missing from a home on Noyes Lane.

The youth, the police said, will be given a hearing in children's court.

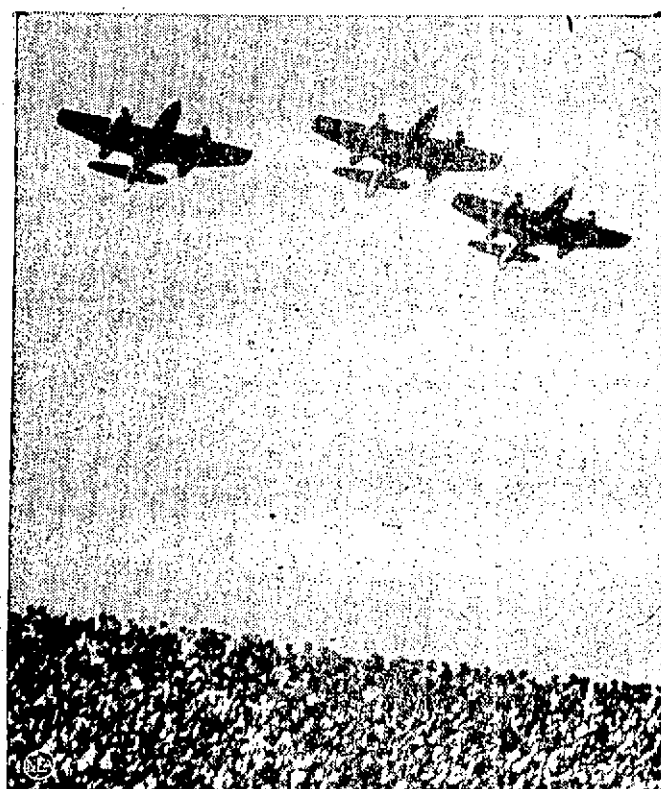

Obermeier Is Elected

New York, Sept. 9 (AP)—The arrest of Michael Obermeier, 54, Munich-born president of Local 6, Hotel and Club Employees Union (A.F.L.), on a warrant charging him with membership in a subversive organization, was announced late yesterday by W. Frank Watkins, district director of the Immigration and Naturalization Service. Only three days before, immigration officials had announced reopening of deportation proceedings started six years ago against Hungarian born John Santo, 42, organization director of the I.C.O. Transport Workers Union. Hearing was continued until Thursday.

More Than 2 1/2 Billions Is Paid to Veterans

Washington, Sept. 9 (AP)—More than \$2,500,000,000 has been paid to veterans in unemployment or self-employment allowances since the fall of 1944, the Veterans Administration announced today.

However, only half of the nation's 14,500,000 World War II veterans have received readjustment payments of any kind and fewer than eight in every hundred have claimed all of the allowances to which they are entitled under the G.I. bill.

The law provides payments up to \$20 a week for unemployed veterans for a maximum of 52 weeks. Self-employed veterans may claim \$100 a month, less net earnings for a maximum of 10 2/5 months. From the start of the program to August 1, 1947, 6,708,000 veterans received one or more unemployment checks. Another 534,

000 self-employed veterans received payments while earning less than \$100 a month. Nearly 90 per cent of the self-employed group receiving payments were in farming operations.

Unemployment payments were made to an average of 750,000 veterans during July, 1947, compared with a weekly peak of 1,800,000 a year earlier. Self-employed claimants numbered 250,000 during June, 1947, compared with a monthly peak of 322,000.

Will Enter Primary

Washington, Sept. 9 (AP)—Harold E. Stassen announced today he will enter the Wisconsin presidential preference primary next April 6 in his quest for the Republican presidential nomination. The former Minnesota governor also told a news conference that he will make a major speech in Milwaukee November 24. He described this as his opening address in his campaign for the Republican nomination.
